In a Crisis – Ask an Expert

Tomorrow night at 6.30pm AEST CF Centre Directors Jude Morton (Adelaide Adults) and Sharon Hunt (Westmead Paeds) and members of their MTD team will be joining Consumer Connect to answer all your questions.

Many of us are now well over a month in 'lockdown' and it is important that we stay well informed and connected with the CF Community.

Consumer Connect allows you to ask your questions to the Experts and then follow up with further enquires. You need to submit your first question when you register (at least one hour before the session starts).

The two previous sessions were very well received and attended by hundreds of people.

Getting on to Consumer Connect is simple...

1. Go to the CFA Consumer Connect section
<https://www.cysticfibrosis.org.au/consumerconnect>
2. Log in if you are a regular or sign up if you are new to Consumer Connect
3. Click 'Register to Participate' (red button)
4. Submit a question or simply put n/a
5. Click 'Submit My Question' (red button)

The Consumer Connect airwaves have been very busy of late so we recommend you get online 15 minutes prior to make sure your connection is good. If you do have any difficulties we will be able to help you then. This is not possible once the session is underway.

I look forward to seeing first timers and loyal viewers on Consumer Connect this week but before we even get started I want to thank Judith Morton and Sharon Hunt and both their teams for taking the time to share their knowledge with the CF Community. We are very lucky to have such great clinicians.

Kind regards

Great News. Coles have opened up their Registered Charity Priority Online Shopping to people with CF. And it is a very simple process. Simply email your full name and CF Centre to robypnp@cfa.org.au and we will send you a unique code. Be patient as there is a great demand but priority access for people with CF.
