

23 September 2020

The **Ann Maree Bosch Career Fellowship** has come around again and each time it does it gives us pause for reflection.

Ann Maree meant a lot to Cystic Fibrosis Australia (CFA) and a lot to me specifically, being a member of the 'old guard' at CFA when I arrived. She welcomed me into the organisation and the CF world and always showed me the same warmth for which she is remembered by many of you.

The opportunity represented by the Fellowship speaks for itself, \$10,000 and a spot on the Australasian Cystic Fibrosis Conference roster is a fantastic opportunity for any early career researcher and I'm sure that there will be another great round of talented applicants.

I encourage all who meet the criteria to put their best foot forward and I wish you luck in the selection process.

I think that it is also important to remember, for the hopeful applicants as well as for our community at large, that it is only thanks to the efforts and inspiration of people like Ann Maree that these opportunities become possible.

We will never think of her without a smile and a stolen glance at her photo on the office wall.

As she would say 'Put the kettle on, girls.'
