

23 April 2021

**CALL FOR ABSTRACTS**  
**14<sup>TH</sup> AUSTRALASIAN CYSTIC FIBROSIS CONFERENCE**  
**ONLY TWO WEEKS LEFT - SUBMIT YOUR ABSTRACT TODAY!**  
**Submission deadline is Friday, 7<sup>th</sup> May 5.00pm (AEST)**

You are invited to submit your abstract for this year's 14<sup>th</sup> Australasian Cystic Fibrosis Conference (ACFC) to be held on August 7<sup>th</sup> and 8<sup>th</sup> August 2021 at The Shangri-La Hotel, The Rocks, Sydney (Medical attendees only). The conference will be a hybrid digital experience for those that can travel and those that cannot travel.

Accepted posters will be exhibited online in a poster gallery, therefore your research will reach an even greater audience. Abstract presentations will be pre-recorded. In person attendance is not required if your poster is accepted, but you are required to register in the virtual experience [HERE](#).

Why submit an Abstract?

1. Showcase your research at a premier gathering of cystic fibrosis (CF) health care professionals and research scientists
2. Enrich your ACFC experience and knowledge of CF by getting feedback from fellow experts
3. Provide more visibility for your organisation and its role in the fight against this disease
4. Gain recognition by having your abstract, if accepted, as an e-poster presentation.

Cystic Fibrosis Australia (CFA) is excited to be welcoming world class specialists in the field of CF who will have an opportunity to share their expertise and research with the CF community in Australia and New Zealand under the theme of "Care for All".

For all further information or questions regarding the submission process, please visit the Conference website [HERE](#), [ABSTRACT SUBMISSIONS](#), contact the [Conference Secretariat](#) or phone CFA on (02) 9889 5171. Submissions must be made via email and sent to [info@cfa.org.au](mailto:info@cfa.org.au).

This year we are also introducing the New Investigator Award (NIA) for researchers with a maximum of 5 years' experience working within the CF field.

We would like to thank you in advance for your scientific contribution to the 14<sup>th</sup> ACFC and we would appreciate if you could share this invitation widely amongst your teams, peers and colleagues.

Kind regards

Professor Phil Robinson

Consultant Respiratory Physician,  
Director of Respiratory & Sleep Medicine  
The Royal Children's Hospital Melbourne

Nettie Burke  
Chief Executive Officer
