

24 July 2021

NOT LONG NOW

In two weeks time, 500+ members of the Cystic Fibrosis (CF) Community will be attending the 14th Australasian Cystic Fibrosis Conference (ACFC) ... have you booked your ticket yet?

[Lay Conference](#) registration is \$75 and [Medical Conference](#) registration is \$175.

State and Territory CF organisations are funding Lay registrations so contact them now. <https://www.cysticfibrosis.org.au/contact-us>

With 150+ speakers; 80+ sessions and access to the latest CF medical research and treatment breakthroughs, the 14th ACFC is an event not to be missed.

The online conference is being supported by Consumer Connect. When you register you will be required to submit a password that will give you access behind the paywall. This password will be needed to access content until November 2021.

Consumer Connect operators Padlokt, will email your conference access details 24 hours prior to the conference. If you don't receive this email first check your junk mail and if it is still not found email Mala Ganpati malag@cfa.org.au.

Many of you have joined Consumer Connect before, but as the ACFC event is a more complex execution with all the digital bells and whistles, old passwords will not gain you access.

The CFA team is there to help so if you need information about attending either the Lay or Medical conferences email Mala Ganpati malag@cfa.org.au. If you are a speaker or chairing a session contact Nicki Mileham nickim@cfa.org.au.

Kind regards

Nettie Burke, CEO
