

30 July 2021

Time is Running Out

The Australasian Cystic Fibrosis Conference begins in one week (Saturday 7th & Sunday 8th August) and over 450 people will be online to learn about the greatest and latest cystic fibrosis treatments, research and clinical care developments from 150+ speakers.

Following 18 months of work by our Lay and Medical Committees we know it is going to be a truly worthwhile event.

Register before Monday 4pm to get a Conference profile, connection check and training.

After this time Cystic Fibrosis Australia (CFA) will be able to offer you a generic registration but all training and tech checks will be finished.
