COLON CANCER AND CYSTIC FIBROSIS

As a person living with cystic fibrosis, you are no doubt aware that Cystic Fibrosis Australia is devoted to continuously improving education, awareness and quality of life for the cystic fibrosis community.

In order to achieve these goals we require insight into the understanding and concerns of people like yourself. As such, we ask that you take a few minutes of your time to complete this simple, anonymous, questionnaire in the link below regarding your understanding of health risks associated with cystic fibrosis.

We hope that together we can continue to improve the health of all people living with cystic fibrosis.
