

22 October 2021

UNDER THE WIRE

The 14th Australasian Cystic Fibrosis Digital Lay Conference is imminent! At the time of writing, we have a week to go. One week until the culmination of CFA's hard work and one week until the CF Community is able to come together for deep conversations on the big issues.

The CF Community is always together in spirit, but it has never been easy to get us all in one place. Even during the times of greatest struggle, when our allies and advocates are out there campaigning for drugs and funding, we still face the problem of wide geographic spread and the mutual concerns of limiting infection.

This year there is one last opportunity to rally under a single banner and plan the future of CF care.

Our Lay Program this year runs the gamut from Transplants to Travel Plans and from Mental Health to Family Planning. We have a special focus on the hot topics of New Medicine and Pathogens this year since they have so greatly impacted our community in recent months.

CFA continues in its efforts to turn out in-depth and accessible CF health resources such as the 'CF Donut' program and our 'CF & COVID' panels.

The upcoming Conference will be our opportunity to put you in front of the world's foremost experts on CF and related subject matter. We want our community members to be online and ready so that you can pick brains, share ideas and ask the hard questions.

To be there with us on the day simply email nickim@cfa.org.au or follow our [LINK](#) and Register. For technical reasons we must close off Registrations on Monday the 25th of October – this coming Monday at 5pm! – so if you are thinking of joining us don't put it off.

Get in under the wire and be part of our biggest ever online CF Conference. There has never been more to cover, and there has never been more to learn.

Kind regards

Nettie Burke
