A LOT TO TALK ABOUT

Tonight at 6:30pm, CFA will return to our dedicated online platform *Consumer Connect* for a very important session with our Community. I will be joined by Dr Peter Wark and by Jessica Ragusa, a member of our CF Community.

The recent PBAC recommendation of Trikafta has raised a lot of questions. We all want to know how long it will take for this drug to be fully listed on the PBS and made accessible to all Australians.

Many of you have also reached out to CFA with offers of support in our ongoing Advocacy battle to get the Trikafta issue on a fast track. We have a lot of irons in the fire and it only makes sense to open up the discussion to our community and answer the important questions on your mind.

On a personal note, I am looking forward to meeting you all and hearing your voices. Since taking the reins at CFA I have had a lot of amazing experiences, but the pandemic continues to limit my opportunities to interact with the CF Community and that is a real shame.

Join us on Consumer Connect tonight via the link below to learn more about the Trikafta situation in Canberra, as well as hearing from our panel and discussing the road forward in this fight. I hope that I can also get to know some of you and tell you a little bit about myself. My time at CFA has been a wild and wonderful ride so far and I can't wait to come together as a community.

See you all online!
