

20 June 2022

10 DAYS TO GO

As you know, we have been working tirelessly in this season to raise the much-needed funds to sustain our work as we look to the future and the critical need for upcoming projects.

It is unfortunate that charitable works need to be funded through donations to take place, but this is our reality that I must embrace for the benefit of the cystic fibrosis (CF) community.

In fact, it has been a difficult couple of years to raise funds. You are probably aware that there has been an increase in the number of other worthy causes that require donations around the world and across Australia, as we have seen war and natural disasters cause heart-breaking devastation.

Sadly, other organisations, like Cystic Fibrosis Australia (CFA), are impacted and we still have a need to raise \$25,000 to reach our target before the end of June.

If you haven't already donated, may I request you please dig deep and contribute what you can in this critical time for us. The more people who donate the more achievable reaching our goal will be.

Imagine, if the 10,000 (plus) followers across our social media platforms all made a contribution, no matter how big or small, we could achieve our goal in no time!

I realise this is a big ask, but when our goal is broken down in this way and the more people are involved - what seems like an enormous mountain, becomes a much more manageable step.

I would also like to encourage you that together as we make our contribution, no matter how small it may feel, we are part of something bigger. As we continue to unite as a community, we can absolutely reach our target for this campaign. Your support will help establish us to better achieve the outcomes we need for our CF community sooner.

Thank you to everyone who has donated to our tax appeal already.

As you reflect on these words, please remember the stories we have recently shared from Lizzie, Brad, Tom and Jess, because your contribution helps change lives and that is an outcome that is truly priceless.

Thank you for support.

Warm regards.

Jo Armstrong

CEO

Cystic Fibrosis Australia
